'Karrie Armijo'

Camellia sinensis

- Black and green teas are made from the new leaves of this camellia.

Camellia sinensis

Single

Formal Double

Anemone

Semi Double

Peony

Rose Form Double

PRUNING

The best time to prune camellias is right after they finish blooming in the spring. Remove dead wood. Thin and shape as desired.

FERTILIZING

Use an acidic camellia fertilizer:

April 1

July 4

May 30

September 1

DISBUDDING

For larger blooms, remove all but one flower bud at the end of each stem.
